

STENGARD TECHNOLOGIES

Engineered to Stand · Built to Endure

Service-Disabled Veteran-Owned Cybersecurity & IT Services

COMPANY OVERVIEW

Stengard Technologies is a Service-Disabled Veteran-Owned Small Business (SDVOSB) delivering cybersecurity, cloud, and information-technology services to federal agencies and their prime contractors. Founded and led by a disabled veteran with hands-on experience securing mission systems, Stengard brings the discipline of military service to protecting the data, networks, and missions our government depends on. We build the stronghold agencies operate behind — engineered to stand, built to endure.

CORE COMPETENCIES

- Cybersecurity Engineering & Architecture
- Vulnerability Assessment & Penetration Testing
- Security Operations & Threat Analytics (SOC)
- Cloud, Network & Infrastructure Engineering
- Risk Management Framework (RMF) & ATO Support
- Compliance: NIST SP 800-171, CMMC, FISMA
- Cloud Migration & Security (Azure / AWS GovCloud)
- Data Protection, Encryption & Cyber Resilience

DIFFERENTIATORS

- SDVOSB status — eligible for set-aside and sole-source awards (services up to \$4M), helping agencies meet veteran small-business goals.
- Veteran-led, mission-first culture — the same accountability and ownership we carried in uniform.
- Senior, hands-on engineers on every engagement — direct expertise, not bench time.
- Small-business agility with enterprise-grade rigor and DCAA-ready practices.

NAICS CODES

- 541512 — Computer Systems Design Services
- 541519 — Other Computer Related Services (cybersecurity)
- 541511 — Custom Computer Programming Services
- 541690 — Other Scientific & Technical Consulting (security)
- 518210 — Computing Infrastructure / Data Processing & Hosting
